# How Troy WXC® conditioning keeps the cost of laundry in good condition

With a Troy® Washer-Extractor-Conditioner, of course, you shorten your washing operation to two steps—load and unload.

But Troy conditioning gives you even more savings. With a Troy WXC unit, steam is directed through a hollow trunion shaft in the *center* of the cylinder, evenly distributing the heat to the entire load. A powerful exhaust fan draws the steam through the fabric to quickly and equally raise the temperature of the entire load to over 200° F. The dry steam works wonders—the high temperature lessens the surface tension of absorbed water and "opens" the pores of fabrics to permit faster, more complete separation of moisture from the load. The result: moisture retention in the low 40% range after only 12 minutes of relatively low RPM extracting, including "shake-out." No material is packed or clinging to the cylinder side sheet and everything is ready for direct transfer to finishing. Compare this to higher RPM machines that deliver only 48% after 16 minutes. Just consider the cost.

Our good, clean engineering does it.

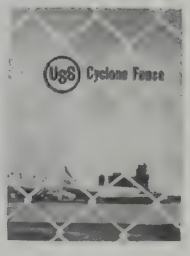
# The corrosion protection lasts 3 to 5 times longer on USS Cyclone Steel Fence—Aluminum-Coated

**Here's a brand-new kind of fence combining the economy, versatility and strength of steel with the corrosion resistance of aluminum. Check these features and see for yourself why no other property protection fence gives you more for your investment.**

• • •

**Strength.** New CYCLONE Steel Fence—Aluminum-Coated owes its strength to a tough core of steel. The aluminum-coated steel wire has a minimum tensile strength of 80,000 psi. Greater strength . . . longer service.

**Corrosion Resistance.** The coating on new CYCLONE Steel Fence—Aluminum-Coated will give 3 to 5 times the service life of first-line galvanized coatings. The superior corrosion resistance of aluminum-coated steel fence results from the hard oxide shield that forms on the exposed surface. Impervious to the effects of most atmospheric conditions, it doesn't readily wash away. Long-term field testing has proven its superiority. The more corrosion resistant your fence, the longer it will be in service.



**Fence Components.** Every CYCLONE Brand component is engineered for longer service life. POSTS: CYCLONE H-Posts were designed by CYCLONE specifically for use with chain link fence. They're solid steel, designed like a structural beam for extra strength. They have no inner surfaces to corrode. GATES: Each CYCLONE Gate has sleeve construction. If damage occurs, replacement is simple. Remove a few rivets, insert a new part. No welding, no skilled labor needed.

**Price.** New CYCLONE Steel Fence—Aluminum-Coated costs only slightly more than first quality galvanized chain link fence, yet the coating lasts 3 to 5 times longer.

**Complete Service.** Buying a CYCLONE Fence means that you can contract for the complete job. Our installation service is guaranteed. CYCLONE-trained erection crews are experts. When CYCLONE fences your property, the product's right, the job's right.

**Protect Church Property with Cyclone.** There's no question about the necessity of protecting church property against thievery and vandalism, or of keeping children in parochial playgrounds out of danger. Make sure it's with sturdy USS CYCLONE Steel Fence—Aluminum-Coated. For stretching your maintenance budget, nothing equals USS CYCLONE Steel Fence—Aluminum-Coated. It's made to last years longer.

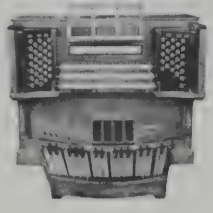
# *This is the one electronic organ that meets Catholic liturgical requirements*

It is now possible for every Catholic church, large or small, to have required traditional pipe organ voicing at a cost to meet even the most modest budget. Saville, the only electronic organ designed specifically for the church, produces a truly authentic sound of pipes. In fact, upon hearing recordings of it, well known organists have believed it to be a pipe organ, so faithfully does it register the unique harmonic envelopes and characteristics of fine pipe organ voices.



Another important advantage of the Saville is that it is custom designed and custom installed to meet the acoustical requirements of the church building, as well as the individual desires of the organist.

Should you be considering an organ for now or in the future, be sure to see and hear the Saville. The Saville dealer in your area will be pleased to arrange for a demonstration at your convenience. *Write today for his name* . . . we will also be pleased to send you complete literature.

# CATHOLIC EDITION
# HOLY BIBLE

The RSV Catholic Edition of the Holy Bible brings the benefits of modern scholarship to the Scriptures . . . as well as the beauty, clarity and dignity characteristic of English-language Bibles for over four hundred years. Leading churchmen have acclaimed the significance of these new editions, which were prepared by the Catholic Biblical Association of Great Britain with the warm encouragement of the Church. Suitable for study and private reading, the RSV-CE Bible will foster increased appreciation of the Scriptures in Catholic schools and homes. Teachers, students and families will find them a source of guidance and inspiration throughout the year. Beautifully printed in 9-pt. type and durably bound, the RSV-CE is available in a choice of bindings and prices.

From the foreword to the Holy Bible by Richard Cardinal Cushing, Archbishop of Boston:

> "For many years it was the hope of many that a Bible common to all Christians would be produced. Only love could bring this about. The spirit of charity nurtured this hope and here is the result inspired by the ideals of Christian unity."

## REMODELING?

*and ....Advantages*

- FLEXOTILE is light weight—a standard ½ inch coat weighs only 5½ lbs. per square foot.
- FLEXOTILE provides a jointless, continuous floor which is ideal for sanitation purposes, particularly in luncheon or cafeteria areas and in hospitals.
- FLEXOTILE is quickly and easily installed—takes only 4 or 5 hours for the floor to set. Consequently, if conditions require, a FLEXOTILE floor can be installed in the evening hours out of everybody's way and be ready for full use the following morning.

• FIREPROOF FLOORS. FLEXOTILE conductive flooring is a spark-proof, static, discharging conductive flooring which meets all the requirements of the National Fire Protective Association, The American Hospital Association, and The National Board of Fire Underwriters. This means that you have an absolutely safe flooring, which is obviously of vital importance particularly in institutions such as hospitals, laboratories and so forth.

confessionaire

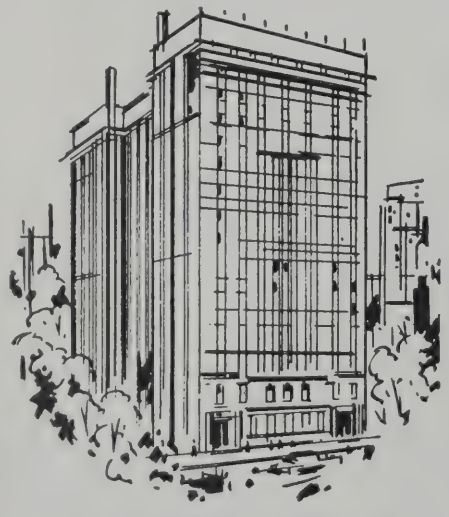
## Must they avoid confession . . . rather than admit they can't hear you?



Penitents with impaired hearing often avoid the confessional because they are ashamed to admit their affliction. At times the priest comforting a hard-of-hearing confessor does not know if he is really helping his parishioner.

The Apostolate for the Deaf and Hard-of-Hearing has conducted a life-time study of this subject. They report that over 18% of all Catholics suffer impaired hearing. This potent but "invisible barrier" to confession can be easily overcome with the Confessionaire. This is the only confessional hearing device designed to benefit the one out of every six parishioners (or priests) who cannot hear well.

How does it work? The Confessionaire is turned on during the entire confession. The necessarily low voice level of the priest is picked up by an extremely sensitive microphone and clearly relayed only to the penitent. The priest's whispered words are heard clearly and distinctly. Even those with normal hearing appreciate the added convenience of this electronic marvel.

# FOLDING PARTITIONS and WARDROBES

## provide flexibility in the unique "School in the Round"

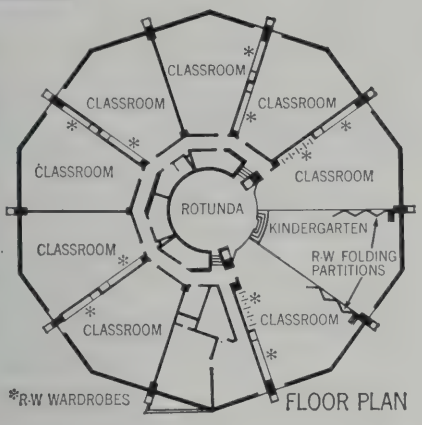

*Photo illustrates effective use of R-W Folding Partitions and Wardrobes in the Our Lady of Good Counsel School, Chicago, Illinois. Architects: Kefer and Cronin, A.I.A., Chicago, Illinois.*

This school graphically illustrates a fresh and vital approach to elementary school design. One of the outstanding features of the design is the flexibility provided by the R-W Folding Partitions used to separate three classrooms and the stage. This provides a multi-purpose area that can be used for classrooms, for large assembly groups or as an auditorium for special events. R-W Wardrobes were utilized in each classroom to provide practical storage facilities.

This school provides a classic example of how modern design concepts are best achieved with R-W Folding Partitions—*a time-proven* product.

# WARP'S
## REVIEW-WORKBOOKS

### Make Teaching Results Immediate

Tuned in with the times, which are moving so swiftly it is often difficult to keep pace, is every one of the WARP'S REVIEW-WORKBOOKS for the Fifth, Sixth, Seventh, and Eighth Grades. And that really explains why they add so swiftly to the process of communication you set in motion each time you face your classes.

The old methods of teaching, with their slow pace, their even tenor, their time-lag will no longer do. Nowadays your communication must be as swift as it is sure—and it must be both sure and swift if your teaching is to have complete approval in today's teaching world.

The method, which WARP'S REVIEW-WORKBOOKS employ in bringing about this swift and sure communication, is one which has the backing of fifty years of intensive use in schools all over America and in Canada and other parts of the world. The method, which is based essentially upon scientific principles of teaching that are ageless, that are unchanging, that are as new as when they were discovered, has become known as the *Warp Teaching in Depth Method*.

This Method makes every day in the classroom a day of accomplishment, because it makes the process of communication upon which all teaching depends, swifter, surer, more lasting in its effect.

Pupils taught with WARP'S REVIEW-WORKBOOKS are better taught than pupils without them. Write at once for free catalogue which describes in detail each book. Request information on the MODERN ENGLISH GRAMMAR for High School and YOUR CAREER a new Guidance Book for students.

# sound financial program key to viable parish

A most urgent problem facing the majority of pastors today is the spiraling cost of running a parish, of meeting all operating expenses, of providing for necessary maintenance and renovation, for projected building programs which hinge upon current reserves, and for the expanding spiritual and social needs of all parishioners.

Trying to meet this challenge, many priests find traditional answers no longer adequate, whether the local remedy of chance, bazaars, or special collections; or the expensive solutions of professional fund-raisers. Worst of all, even these stop-gap measures place inordinate demands on the priest's own time, and take him from far more important tasks.

You may now resolve this dilemma to your complete satisfaction. The Parish Financial Advisory Council has recently completed seven years of intensive effort in perfecting a sound financial plan for each parish to meet its own particular needs. It is available for your use.

We will gladly present a preliminary proposal and analysis to you at no cost and with no obligation.
